31<sup>st</sup> August 2021

Dear Sir/Madam

**Re: Hazardous/Clinical Waste Management**

NHS England & Improvement have reviewed the management provisions for clinical waste contracts nationally. Following a successful procurement process led by our national team we have appointed Anenta Ltd as the new managing agent for waste contracts in the West Yorkshire area.

Anenta is already commissioned as managing agent in other areas of the country to manage GP and Pharmacy clinical waste contracts on behalf of commissioners and our national team has promoted this approach given the service has been positively received by commissioners, GP Practices and Pharmacies where a managing agent service is in operation. This system has already been deployed in Kent Surrey and Sussex, Hampshire and Isle of Wight, Buckinghamshire, Oxfordshire, Berkshire and London and has proven invaluable in the management of waste.

With effect from 1<sup>st</sup> September 2021, Anenta Ltd will manage the contracts for clinical waste collections from GP practices sites and returned medicines from community pharmacy sites in West Yorkshire. **You will continue to get collections from your current waste contractor (SRCL, Rentokil Initial, or PHS, etc),** however all queries related to waste management must now go to Anenta.

Anenta's Team are highly experienced in all matters related to waste management including clinical waste compliance, contract management and financial management.

Anenta will manage all contract related matters, operational and financial validations issues while working with all waste producers and contractors to improve compliance and efficiency levels. The contracts under management specifically relate to the services provided by your designated waste contractor.

In the meantime, if you want to know more about Anenta please visit their website [www.anenta.com](http://www.anenta.com)

If you have any questions relating to the above, please do not hesitate to contact me directly. Please note we have also sent similar communications to the Local Medical Committee's in West Yorkshire and Community Pharmacy West Yorkshire to make them aware

Yours sincerely
