

How Community Pharmacy Supports the Primary Care Network Directed Enhanced Services (DES)

Collaboration with Non-GP Providers

Talk to your **PCN Community Pharmacy Lead (PCN CP Lead)**

Provide 'back door' phone numbers for pharmacists to quickly resolve urgent queries. Agree communication channels and producers.

Medication Review and Medicines Optimisation

Refer patients with newly prescribed medicines into the

Pharmacy New Medicines Service.

Cardiovascular Disease (CVD)

Improve access to testing by referring into the

Community Pharmacy Blood Pressure Check Service

Enhanced Care in Care Homes

Discharge Medicines Service

DMS

Influenza & Covid Vaccination Service

Discuss with community pharmacies how they will be supporting the PCN to meet their vaccination target

Care Coordinators

Manage Caseload by referral to other Primary Care Professional by referral into GP CPCS

Community Pharmacy Consultation Service

GP CPCS

Use GP Pathway for referral to CPCS to ensure a formal transfer of care.

Provide appointments for patients within 14 days of booking.

TRIAGE to community pharmacy using the GP Pathway for referral to CPCS.
