# Potential Parliamentary Candidate (PPC) Visit!

Monday 17th June 2024

**George Foote, Community Pharmacy England:**

“The visit went well and John seems knowledgeable about community pharmacy and primary care in general.

He was particularly interested in the Pharmacy First Service and exactly what that entails. Sally Briggs, Day Lewis Area Manager, did a good job of explaining some of the areas that could be tweaked to further encourage referrals into the service, including encouraging local GPs to engage more. John understood this and said if elected he would try to unblock some of these issues.

John also spoke to the team, including the Pharmacy Manager who talked briefly about the current medicine supply issues and gave some examples of medication that was in short supply.

John understood all the various pressures on the sector and was aware of the situation with closures. He would be happy to be a pharmacy supporter in the next parliament.”

*Thank you to the team at Day Lewis  
Pharmacy in Haworth, George Foote from  
Community Pharmacy England and Labour  
PPC John Grogan.*
