

Halifax MP, Kate Dearden hosted a Parliamentary Consultation Event in Calderdale on the afternoon of 14th February 2025.

Members of the CPWY team were invited to attend the event and provide blood pressure checks for the constituents taking part. We promoted the Pharmacy Hypertension Case-Finding Service and signposted anyone with a high reading to go to their local pharmacy for further checks. We also promoted the Pharmacy First Service, particularly the clinical pathway conditions.

The event was well-attended and there was a lot of support for Labour's plan to get more people treated in the community, rather than hospitals.

*Kate Dearden MP, took the opportunity to have a blood pressure check and encouraged everyone attending to take up the offer as well. We are hoping to arrange a follow-up visit to a local pharmacy, in the near future.*
