

We were thrilled to welcome over 80 community pharmacy colleagues to our November Advanced Services Update Event! The CPWY team delivered key updates on Advanced Services, with a focus on the Pharmacy Contraception Service. Dr Helen Padfield from Locala Sexual Health and nurse Danielle Battersby gave an insightful presentation on oral Emergency Contraception, sparking valuable discussion through case studies and a Q&A session. Dr Phil Xiu also joined us to highlight DPP support, CPD opportunities, and the evolving education landscape for community pharmacists.

This event was sponsored by GSK, Pfizer, Procure Health and Viatrix. Sponsors had no influence on the agenda or input into the event.

A fantastic evening of learning, collaboration and service development. Thank you to all our attendees, speakers and sponsors!
