

### Record-Breaking DMS Claims in July!

We're delighted to announce that July 2025 saw the highest number of NHSBSA claims for the DMS ever submitted across community pharmacies in West Yorkshire! This achievement highlights the sector's dedication to supporting patients during transitions of care and improving medicines safety.

A huge thank you to all pharmacy teams for your continued commitment to delivering this Essential Service.

**Faster Claims, Bigger Impact** – Thanks to the updated and simplified DMS claiming process via the Manage Your Service (MYS) portal, submitting claims is now quicker, easier, and more efficient. The shorter template has removed unnecessary admin barriers, allowing more pharmacies to claim for the work they're already doing, and get paid for it.

**Total Monthly DMS Claims via BSA**

**Don't Miss Out:  
Claim What You've Earned!**

Every DMS intervention represents valuable clinical work and it's vital that pharmacies are properly reimbursed for the care they provide.

Submitting claims ensures your team is recognised and rewarded for the impact you're making.
