

## 25/26 Leeds Transactional QIPP – LMOG review

The below medicines were reviewed at LMOG, feedback taken to Leeds QIPP group who agreed below:

Workstream	Switch from	Switch to	Decision
Glycopyrronium	Glycopyrronium tablets 1mg & 2mg	Brand Assicco	Removed due to price reducing – price will continue to be monitored
Haloperidol	500microgram tablets	5mg/5ml oral solution sugar free (at 0.5ml dose equivalent)	Removed due to safety risk as such a small dose to administer
Melatonin	Melatonin 1mg/ml Liquid	Ceysto 1mg/ml oral solution	Removed as currently not supporting branded generic switches
Immediate release (IR) oxycodone solid-dose form	Generic & higher cost brands of oxycodone IR capsules / tablets	Brand Oxyact®	Brand name prescribing only recommended. Historically have performed switches to cheaper brand of CDs. Acknowledge hospitals prescribe CDs generically but this does not apply to primary care. Stock assurances received.
Prolonged Release (PR) Oxycodone tablets	Generic & higher cost brands of oxycodone IR capsules / tablets	Brand Oxypro®	Brand name prescribing only recommended. Stock assurances received
Tapentadol modified release	Generic & higher cost brands of tapentadol capsules / tablets	Brand Tadomon®	Brand name prescribing only recommended. Stock assurances received
Fentanyl	Fentanyl Patches	Brand Opiodur®	Brand name prescribing only recommended. Stock assurances received
Quetiapine PR	Generic & higher cost brands of quetiapine	Biquelle XL®	Removed due to stock shortage of quetiapine PR
Ketoconazole Shampoo	Ketoconazole 2% Shampoo	Nizoral 2% shampoo (Thornton & Ross)	Removed as does not fit with QIPP principles, no switching generic to brand. Concerns raised about licensing for OTC product

## 25/26 Leeds Transactional QIPP Plan

ONS	Improve compliance with ONS formulary choices - Aymes
Biosimilars	Novorapid - Trurapi & Humalog - Admelog Denosumab once available
