To enable the prompt supply of specialist palliative care medicines, the demand for which may be urgent and/or unpredictable some pharmacies within West Yorkshire are commissioned to maintain a stock of specified drugs. This service is commissioned to facilitate access to palliative care drugs when the patient's usual pharmacy does not have them in stock. The service is only available during the opening hours of the pharmacy.

It is recommended that the patient's usual pharmacy should be the first port of call for any prescription as many pharmacies hold palliative care medicines and items not urgently required can be ordered. The palliative care medicines service should only be needed when the patient's usual pharmacy does not have the urgently required drug in stock.

Health and care professionals can access NHS Service Finder, <https://digital.nhs.uk/services/nhs-service-finder> to locate a community pharmacies who routinely hold palliative and end of life critical medicines. The term 'Pharmacy Palliative Care Medication Stockholder' should be used to search NHS Service Finder. The search is not limited to West Yorkshire boundaries and will return a greater number of pharmacies than within this document as service finder lists pharmacies who routinely hold palliative and end of life medicines under the national Pharmacy Quality Scheme as well as those commissioned by WY ICB.

Prescribers are reminded of the top tips for prescribers and procedure for obtaining urgently required information available here: [2020.04.01-Appendix-One-Revised-Formulary-information-sheet.pdf \(cpwy.org\)](#).
